

BirdAI Memory Context Summary

Generated: 2026-05-07

Repository

- Path: /Users/balajikannan/Documents/GitHub/birdeyev2
- Branch: main

Recent Completed Work

1) Checkbox standardization

- Updated core checkbox primitive alignment with Aero DS:
 - src/app/components/ui/checkbox.v1.tsx
- Added/expanded checkbox story coverage including indeterminate and state matrix:
 - src/stories/Checkbox.stories.tsx
- Applied 1.6 stroke check icons in menu/select checkbox indicators:
 - src/app/components/ui/dropdown-menu.v1.tsx
 - src/app/components/ui/context-menu.v1.tsx
 - src/app/components/ui/menubar.v1.tsx
 - src/app/components/ui/select.v1.tsx
- Updated legacy agent-builder location checkbox token colors:
 - src/app/components/agent-builder/RHSDrawer/LocationsDrawer.css
 - src/app/components/agent-builder/RHSDrawer/RHSDrawer.css

2) Contacts add-sheet checkbox UX consistency

- Made "Phone number and WhatsApp number are the same" row label-clickable and aligned typography.
- Normalized communication preference checkbox label sizing.
 - src/app/components/ContactsView.v1.tsx

3) Hours of operation checkbox consistency

- Removed oversized hours-specific checkbox sizing override and kept default checkbox sizing.
 - src/app/components/settings/HoursOfOperationFields.tsx

4) Placeholder behavior

- Business overview route now renders shell placeholder (content hidden behind placeholder flag path).
 - src/app/components/BusinessOverviewDashboard.v1.tsx

5) Settings item icon grouping UI

- Added grouped icon tile treatment (theme-aware), then tuned tile to light blue tint and removed border.
 - src/app/components/settings/SettingsItemRow.tsx
 - src/stories/App/Settings/SettingsItemRow.stories.tsx

Commits/pushes completed during session

- 0bb45a7 feat(settings): expand business profile editor and align Aero DS controls
- 8a39859 fix(ui): align checkbox usage and hide business overview behind placeholder

Current user-directed reversions

- Reverted requested "all UI primitive icons to primary black" pass; only settings item-row files remained modified after undo.

Verification status

- Multiple successful `npm run build` runs after each significant change batch.
- No linter issues reported on edited files during checks.
